

## IMMUNISATION POLICY

When groups of children are together, illness and disease can spread rapidly. Preventable diseases such as measles and whooping cough can have serious health consequences for children, and especially young children. Staff members who work in an early childhood education and care service are also at increased risk of contracting certain infectious illnesses. Immunisation is a simple, safe and effective way of protecting people against harmful diseases. Our Preschool implements the Australian Government Department of Health, 'No Jab No Play' policy.

### NATIONAL QUALITY STANDARD (NQS)

QUALITY AREA 2: CHILDREN'S HEALTH AND SAFETY		
2.1	Health	Each child's health and physical activity is supported and promoted.
2.1.2	Health practices and procedures	Effective illness and injury management and hygiene practices are promoted and implemented.
2.2	Safety	Each child is protected
2.2.2	Incident and emergency management	Plans to effectively manage incidents and emergencies are developed in consultation with relevant authorities, practiced and implemented.

EDUCATION AND CARE SERVICES NATIONAL REGULATIONS	
77	Health, hygiene and safe food practices
86	Notification to parents of incident, injury, trauma and illness
87	Incident, injury, trauma and illness record
88	Infectious diseases
90	Medical conditions policy
162	Health information to be kept in enrolment record
168	Education and care service must have policies and procedures
172(2)(g)	a notice stating that there has been an occurrence of an infectious disease at the premises

## EDUCATION AND CARE SERVICES NATIONAL LAW

174(2)(a)	Notification to the Regulatory Authority- (a) any serious incident at the approved education and care service
-----------	---

## RELATED POLICIES

Dealing with Infectious Disease Policy Enrolment Policy Family Communication Policy Incident, Injury, Trauma and Illness Policy	Orientation of Families Policy Pregnancy in Early Childhood Policy Record Keeping and Retention Policy Sick Children Policy Work Health and Safety Policy
--	---

## PURPOSE

The purpose of this policy is to provide information to manage and prevent the spread of infectious illnesses and diseases. Our Preschool has a duty of care to ensure that all children, families, and educators are protected from infectious diseases whilst at the Preschool. Along with maintaining a clean and hygienic environment, this also includes notifying families and educators when an excludable illness or disease is present in the Preschool, maintaining a record of children's and educators' immunisation status, complying with relevant health department exclusion guidelines, and increasing educators' awareness of cross-infection.

## SCOPE

This policy applies to children, families, educators, staff, visitors, Approved Provider, Nominated Supervisor and management of our Preschool.

## IMPLEMENTATION

Immunisation is a reliable way to prevent many childhood diseases. Immunisation works by giving the person a vaccine (weakened or killed disease-causing bacteria or virus), against a particular disease. This makes the person's immune system respond in a similar way to how it would respond if they actually had the disease, but with less severe, or possibly no symptoms. The vaccine therefore leads to the creation of antibodies that provide future protection if the person comes into contact with the disease.

Immunisation also protects other people who are not immunised, such as children who are too young to be immunised, or people whose immune systems did not respond to the vaccine. This is because the more people who are immunised against a disease, the lower the chance that a person will ever come into contact with someone who has the disease. The chance of an infection spreading in a community

therefore decreases if a large proportion of people are immunised, because the immune people will not become infected and can protect the vulnerable people; this is known as 'herd immunity'.

## THE APPROVED PROVIDER/ NOMINATED SUPERVISOR WILL:

- ensure information about immunisation, infectious diseases and exclusion periods is available to families at time of enrolment/orientation and is included in Family Handbook
- advise parents and families about the National Immunisation Program (NIP)
- ensure that evidence is provided for each child prior to enrolment that confirms the child is fully immunised for their age or has a medical reason not be immunised (Immunisation History Statement from the Australian Immunisation Register (AIR) as evidence)
- provide staff and families with information about vaccine-preventable diseases
- display wall charts about childhood immunisation schedules within the preschool.
- review children's immunisation regularly, updating the child's records kept at the preschool, and send reminder emails to families as required
- take all reasonable steps to encourage non-immune staff to be vaccinated
- notify the Public Health Unit (PHU) of any outbreak of vaccine preventable diseases (1300 066 055)
- notify families when an outbreak of a vaccine-preventable disease occurs through various channels of communication:
  - verbally
  - through a notification on Story Park from an educator or Approved Provider
  - posting a note or sign at the entry of the residence
  - via email
- notify the Regulatory Authority of any incidence of a notifiable infectious illness or disease [ACECOA contact regulatory authority](#)
- exclude any child who is not immunised from the Preschool if and when an outbreak of a vaccine-preventable disease occurs to protect that child and to prevent further spread of infection. In the instance of the child being immunised but the updated immunisation record has not been sighted by the Preschool, the child is to be considered as not being immunised. ( children on catch-up schedules or children who have missed a schedules immunisation date e.g. 4 years)
- advise any staff members who fall pregnant to visit their GP immediately and have a test for Cytomegalovirus (CMV) to check their immunity. Any pregnant staff member who is at a heightened risk will not change nappies and will double glove when coming into contact with any body fluids, including saliva

## FAMILIES WILL:

- adhere to the Preschool’s policies regarding *Dealing with Infectious Diseases, Immunisation, Sick Children* and exclusion requirements
- provide the Preschool with a copy of one or more of the following documents:
  - An Australian Immunisation Register (AIR) Immunisation History Statement which shows that the child is ‘up to date’ with their scheduled vaccinations; or
  - An AIR Immunisation History Form on which the immunisation provider has certified that the child is on a recognised catch-up schedule; or
  - An AIR Immunisation Medical Exemption Form which has been certified by a GP
- provide the preschool with an updated copy of their child’s current immunisation record every 6 months, or when the next scheduled immunisation has been completed. A current AIR Immunisation History Statement can be accessed at any time by the parent/guardian through logging in to their Medicare online account: [myGov website](#).
- support their child’s exclusion from the Preschool if there is an outbreak of a vaccine preventable disease at the Preschool or if they come into contact with a person with a vaccine preventable disease, even if there is no outbreak at the Preschool.

## INFORMATION TO BE DISPLAYED IN SERVICE

INFORMATION	WEBSITE/INFORMATION	PHONE NUMBER

## Australian Government Department of Health- Immunisation saves lives

Currently there are different immunisation requirements for early childhood education and care services across states and territories. Information on immunisation requirements are listed below.

## New South Wales (NSW)

Children must be fully immunised to attend early childhood education and care services. A current Immunisation History Statement from the Australian Immunisation Register (AIR) must be provided to services.

The National Immunisation Program (NIP) Schedule **TO BE DISPLAYED IN THE SERVICE** can be accessed and downloaded from: <https://www.health.gov.au/resources/publications/national-immunisation-program-schedule-portfolio>

- NSW Health Phone number: 02 9391 9000
- Local NSW Public Health Unit Contact Details:  
<http://www.health.nsw.gov.au/Infectious/Pages/default.aspx>
- NSW Health Immunisation Schedule  
<https://www.health.nsw.gov.au/immunisation/Pages/immunisation-providers.aspx>
- Immunise Australia National Hotline: 1800 671 811
- Australian Government, Department of Human Services:  
<https://www.humanservices.gov.au/individuals/online-help/medicare/getting-your-immunisation-history-statement-using-your-medicare-online-account>

The National Immunisation Program (NIP) Schedule a copy is printed & displayed at preschool. can be accessed and downloaded from: <https://www.health.gov.au/resources/publications/national-immunisation-program-schedule-portfolio>

- The service will download and print the 'one page' immunisation schedule for the NT from the following website and attach it to this policy: <https://nt.gov.au/wellbeing/healthy-living/immunisation/child-vaccinations>
- Current Immunisation Recommendations for Adults in the Northern Territory  
The service will refer to, and encourage educators to participate in, the recommended immunisation program for adults – <https://nt.gov.au/wellbeing/healthy-living/immunisation/adult-vaccinations>
- For immunisation information including vaccination histories, contact the NT Immunisation Register on 08 8922 8315 (Top End) or 08 8951 6928 (Central Australia) or by fax on 08 89228897. The Help Desk is open from Monday to Friday 8 am to 4.20pm
- Families are required to provide one of the following recognised immunisation records
- Australian Immunisation Childhood Register (AIR) History Statement
- Northern Territory (NT) Immunisation Record
- Immunise Australia National Hotline: 1800 671 811
- Australian Government, Department of Human Services:
