

Ballina River Street Children's Centre

Guiding and Supporting Children's Behaviour Policy

POLICY CREATED DATE:

POLICY REVIEW DATE:

Introduction

"An important aspect of children's belonging, being and becoming involves them learning how their behaviours and actions affect themselves and others and developing skills to regulate these independently."

Positive guidance and support towards acceptable behaviour enables children to learn over time how to manage their feelings, and take responsibility for their own actions.

Children need guidance and support in making responsible choices and regulating their own behaviour. Children learn to consider alternative behaviours and recognise inappropriate behaviour within the group.

For children who have a diagnosis of a disability or developmental delay, or may emerge with characteristics of a child with "an additional need" whilst in our care, behaviour guidance and the development of social competence, will need to be considered differently. These "different" approaches will be documented in the 'child with additional needs' folder in collaboration with the parents/guardians, outside agencies and educators.

The Education and Care Services National Regulations requires the service to have a written policy on positive guidance of child behaviour that reflects current practice. The use of physical punishment and restraint; physical, verbal or emotional punishment and practices that demean, humiliate, frighten or threaten a child is prohibited.

Policy Statement

The purpose of the Guiding and Supporting Children's Behaviour Policy is to:

- Encourage acceptable forms of behavior by using strategies that build children's confidence and self-esteem;
- Provide children with support, guidance and opportunities to manage their emotions and develop ways to appropriately control their own behavior; and
- Promote collaborative approaches to behavior guidance and support between Ballina River Street Children's Centre's stakeholders and/ or external agencies

Education and Care Services National Law 2010- Section 3(2)(b); 3(3)(a)(b)(c)(d)(e)(f): 166

Education and Care services National Regulations: 84; 155-156, 168(j)

National Quality Standards for Early Childhood Education and Care: Standard 1.1; Element 2.3.1; Element 2.3.1; Element 2.3.4; Element 3.2.2; Standard 4.1: 4.1; Standard 4.2; Standard 5.1; Standard 5.2; Standard 6.2; Elements 6.3.1,6.3.2,6.3.3

Behaviour guidance and support is a process that focuses on the 'whole child. The Centre (BRSCC) will provide a secure, respectful and stimulating environment which encourages children to co-operate, enhances their self-esteem and encourages their ability to interact with others, and where acceptable behaviour is promoted and any recriminations are kept to a minimum. The educators/staff will endeavor to build relationships with children based on mutual respect and trust.

The Centre(BRSCC) recognises and understands that a child's behaviour may be affected by their:

- Age and development
- Level of familiarity with the Centre's(BRSCC) routines and play limits i.e when they first start at the Centre children may not understand what behaviour is expected of them;
- General health and wellbeing;
- Relationship with their family;
- Play and learning environments; which include physical indoor/outdoor settings, the weather, the time of year and time of day;
- Educator's teaching strategies and caring practices, which includes how those strategies are implemented;
- Relationships with other children and stakeholders, such as students, volunteers and visitors; and
- External factors, such as family, home life, school or peer group experiences, or media coverage of traumatic events

Educators will encourage children to talk about any concerns they may have, and will ensure the program reflects and encourages core values such as friendliness, acceptance, respect, kindness, tolerance and co-operation. Educators will always listen and respond to children when incidents of bullying, violence or harassment are reported or observed, and will act to eliminate such incidents at the Centre. Where a child continues to behave in an unacceptable manner, families will be consulted to establish behaviour support strategies, which ensure that children are treated with the same respect and empathy as an adult would expect.

Strategies for Policy Implementation

Creating the right environment

- Educators create environments with sufficient space that are likely to encourage positive social interactions.
- Children initiating their own experiences using equipment and resources that they can access independently.
- Educators plan experiences in which children practice cooperating, sharing and helping, and point out the advantages of behaving this way.
- How children move from one experience to another is planned to allow smooth transitions and limit interruptions for other children.
- Adequate resources are provided to reduce conflict, but still provide opportunities for children to share.

Positive behaviour guidance strategies

- Educators build relationships with children that are safe, secure, and convey respect. Educators/staff show their respect by using normal tone and volume when speaking with children and working cooperatively with children to solve problems.

Education and Care Services National Law 2010- Section 3(2)(b); 3(3)(a)(b)(c)(d)(e)(f): 166

Education and Care services National Regulations: 84; 155-156, 168(j)

National Quality Standards for Early Childhood Education and Care: Standard 1.1; Element 2.3.1; Element 2.3.1; Element 2.3.4; Element 3.2.2; Standard 4.1: 4.1; Standard 4.2; Standard 5.1; Standard 5.2; Standard 6.2; Elements 6.3.1,6.3.2,6.3.3

- Children’s appropriate behaviours are acknowledged so that children know they have acted appropriately.
- Positive behaviours are encouraged by diverting children to more appropriate experiences, showing appreciation for appropriate behaviour and building on each child’s strengths and achievements.
- Children are encouraged to express their feelings in acceptable ways and to settle their differences in a peaceful manner. Educators talk to children about the types of emotions they experience and how to recognize similar feelings in the future.
- Educators listen to children’s needs and provide them with opportunities to work through their emotions independently. Children’s attempts to deal with their emotions are acknowledged and supported.
- Educators will help all children to understand how their behaviour affects others and will ensure children’s self-initiated play:
 - does not make any other child feel frightened or intimidated;
 - respects the rights and feelings of others;
 - is not overly boisterous or loud; and
 - is valued and supported
- Educators will always model behaviour that encourages inclusion, a sense of fairness, empathy and co-operation with others.

Setting Limits

- Clear guidelines about acceptable behaviours are developed with input from children, families, educators/staff and management. Families are consulted about expected child behaviours at the Centre (BRSCC) at the enrolment interview and through communication strategies such as the Parent/Guardian Handbook, Centre newsletters, and daily contact with their child’s educator.
- Limits to behaviour will be clearly expressed in positive terms and reinforced consistently in a developmentally appropriate way.
- Children are involved in establishing play and safety limits in the Centre (BRSCC), which reflect recommended best practices, and the consequences involved when limits are not adhered to.

Challenging behaviours

- The Centre (BRSCC) believes that developing a supportive relationship with children encourages them to learn skills in self-control. Punishing a child stops the negative behaviour for a while but does not teach the child self-restraint. The consequences of negative behaviour will be discussed with the child and will be consistently followed through. No further punishment will be given and the child will be reminded in positive terms of the expected behaviour.
- Educators will label the negative behaviour and not the individual child, so that it is always the behaviour that is being managed and not the child.
- A “cooling off” period may be needed so the child can calm down before discussing what happened and sharing their feelings with the educator, who will in turn talk about their own feelings and responsibilities with the child. Educators will always talk to the child quietly and as an equal, and preferably away from the rest of the group. Time out to cool down will vary from child to child and may include:
 - listening quietly to soothing music;
 - sitting quietly with an educator

Education and Care Services National Law 2010- Section 3(2)(b); 3(3)(a)(b)(c)(d)(e)(f): 166

Education and Care services National Regulations: 84; 155-156, 168(j)

National Quality Standards for Early Childhood Education and Care: Standard 1.1; Element 2.3.1; Element 2.3.1; Element 2.3.4; Element 3.2.2; Standard 4.1: 4.1; Standard 4.2; Standard 5.1; Standard 5.2; Standard 6.2; Elements 6.3.1, 6.3.2, 6.3.3

- doing something physical i.e. jumping on the trampoline
- sitting quietly with a book
- being left alone in a quiet space (in sight of educators)
- Where a dispute or conflict occurs educators will talk separately to all children involved, be calm, fair, positive and firm in their assessment of the situation. Whenever possible the children will be involved in deciding on the appropriate course of action to follow. Educators will not react to conflict situations by getting angry themselves as this could inflame the situation further. If an educator feels they are unable to control their anger in a particular situation, they will ask for assistance from another educator while they remove themselves from the incident to cool down.
- No child will be isolated for any reason other than illness or accident for any period of time. Children will be supervised by an educator at all times.
- No child will receive any form of corporal punishment, punishment by solitary confinement, punishment by physical restraint or other demeaning, humiliating or frightening punishment, or withheld food or drink as a form of punishment.
- Parents/Guardians who wish to discipline their own children whilst in the Centre(BRSCC) will not at any time use any form of corporal punishment or use unacceptable language.
- Non-enrolled children in the company of their parents/guardians will be required to conform to the Centre's (BRSCC) policy on acceptable behaviour. If a parent/guardian is not able to control their non-enrolled child's behaviour they will be asked to remove the child from the Centre (BRSCC).

Biting and Hitting

- Biting and hitting are normal behaviours in the development of most children, usually influenced by the stage of verbal communication skills. If a child bites or hits another child the following procedures will apply:
 - Educators will attend first to the victim to comfort the child and assess their injuries. First aid will be applied.
 - While attending to the victim (or immediately afterwards) the educator will talk about the incident with biter/hitter, explaining the consequences of his/her action, in words they will understand. The educator will show their disapproval for the child's actions using tone of voice and facial expressions, and encourage the child to "help" make the victim feel better through positive and gentle touching. The educator will suggest an alternative action to biting or hitting i.e. tell the child to say "my turn, please "and will follow this up by encouraging the biter/hitter to ask for a turn and making sure he/she does have a turn.
 - An accident/illness/trauma report form will be completed. Parents of the victim do not need to know who bit their child.
 - A record of what happened will be made including how the situation arose and why the child bit or hit. This information will help educators to prevent a repeat incident.
 - If biting or hitting is an ongoing concern with a particular child his/her parents will be informed and strategies developed that are consistent between home and the Centre (BRSCC).

Bullying

Education and Care Services National Law 2010- Section 3(2)(b); 3(3)(a)(b)(c)(d)(e)(f): 166

Education and Care services National Regulations: 84; 155-156, 168(j)

National Quality Standards for Early Childhood Education and Care: Standard 1.1; Element 2.3.1; Element 2.3.1; Element 2.3.4; Element 3.2.2; Standard 4.1: 4.1; Standard 4.2; Standard 5.1; Standard 5.2; Standard 6.2; Elements 6.3.1,6.3.2,6.3.3

- Whenever an incident of bullying is reported to, or observed by an educator, they will:
 - Intervene immediately to stop the bullying behaviour.
 - Talk to the bully and to the victim involved. If more than one child is involved in perpetrating the bullying, talk to each child separately, in quick succession.
 - Consult with other educators to get wider view on the problem, and to alert them to the incident.
 - Minor incidents will be resolved with positive guidance to redirect the bully, reassure the victim, and aim to achieve reconciliation between bully and victim.
 - Educators will understand that bullies often try and minimise or deny their actions and responsibilities. Educators will tell the bully why their behaviour was unacceptable. They will tell them what behaviour they do expect of them.
 - Educators will reassure the victim that all possible steps will be taken to prevent a re-occurrence of the bullying, and will ensure appropriate measures are taken to achieve this i.e. careful monitoring of the children involved, establishing of system for the victim to call for help etc.
 - Any serious or repeated incidents will be reported to the children's families. Parents/Guardians of the bully and the victim will be informed as soon as practicable. Depending on the situation this could be immediately through a phone call, or when they come to collect their child at the end of the day. Parents/Guardians will be involved in designing a behaviour management plan whenever possible.
 - For victims this will involve helping the child to make appropriate friends and develop their social skills and confidence. Specific instructions in assertiveness skills may also be helpful.
 - For bullies the plan would involve specific programs to modify their behaviour, including increased supervision, anger management skills, encouragement and recognition for their efforts towards non-violent responsible behaviour. If incidents of bullying are very serious or repeated and cannot be resolved, and the bully endangers the safety and enjoyment of other children or educators at the Centre, they may be suspended on a temporary or permanent basis. *Refer to Excluding a child due to inappropriate behaviours.*
- Educators will teach children caring, non-violent, co-operative and tolerant ideas, values and behaviours through:
 - Recognizing and encouraging positive, friendly and supportive behaviours of children towards each other
 - Modelling positive, respectful, inclusive and nurturing behaviours towards children, families and other educators/staff
 - Planning and implementing co-operative, non-competitive experiences.
- Families are asked to tell an educator if they believe or suspect that bullying has occurred. Families are also asked to support the importance of courtesy, consideration and co-operation in everyday life, with their child.
- Educators will be given opportunities to attend training that will assist them to:
 - Identify bullying behaviour
 - Resolve conflicts
 - Manage groups of children; and
 - Be assertive

Managing extreme or persistent behavioural challenges

Education and Care Services National Law 2010- Section 3(2)(b); 3(3)(a)(b)(c)(d)(e)(f): 166

Education and Care services National Regulations: 84; 155-156, 168(j)

National Quality Standards for Early Childhood Education and Care: Standard 1.1; Element 2.3.1; Element 2.3.1; Element 2.3.4; Element 3.2.2; Standard 4.1: 4.1; Standard 4.2; Standard 5.1; Standard 5.2; Standard 6.2; Elements 6.3.1,6.3.2,6.3.3

- If a child's behaviour places him/her or another child in danger, educators will act immediately to prevent the danger, and then talk through the problem with the child or children concerned.
- If children consistently display unacceptable behaviour the educators in the child's room will ensure:
 - the expectations of the child's behaviour are realistic and appropriate to their development level
 - the child understands the limits
 - there is no conflict between the Centre(BRSCC) and home expectations
 - the child's needs are being met i.e. adequate storage for personal belongings, adequate nutritional snacks provided, service set up to encourage independence
 - the child has no impediments which may cause the unacceptable behaviour
 - the child isn't copying observed behaviour
 - consequences of the behaviour do not encourage it to persist
 - strategies are consistently followed by all educators in contact with the child
- Where children exhibit recurring behavioural challenges the nominated supervisor and child's educator will work with the child and the child's family to develop a behaviour guidance management plan that is consistently followed between the service and home. The plan will:
 - explain why the displayed behaviour is inappropriate
 - document inappropriate behaviours that occur consistently
 - identify triggers to inappropriate behaviours
 - document emerging patterns of behaviour
 - define the context in which the behaviour occurs
 - identify where the behaviour could possibly harm another child or adult
 - document the appropriate behaviours that are required to replace the inappropriate behaviours
 - reflect a collaborative approach with the child's family.
- The nominated supervisor is available to discuss and assist with any concern a family may have in respect of their child's behaviour or participation in the Centre's learning program.
- If unacceptable behaviour persists the nominated supervisor will jointly with the family seek advice from an appropriate agency or professional.

Excluding a child due to inappropriate behaviours

- After a child has been given every opportunity to respond positively and if all methods fail to result in an improvement in behaviour, the nominated supervisor will discuss alternative care with the parent/guardian, in consideration of the health and safety of other children within BRSCC Centre care.
- Depending on the severity of the behaviour the Centre(BRSCC) may implement the following steps:
 1. The approved provider will write to the parent/guardian asking that they attend to their child's challenging behaviour. The Centre(BRSCC) will support the family to access further professional assistance; the child will be given reasonable time to respond positively to new strategies and the family will be supported in this as far as possible.
 2. If there is insufficient improvement in the child's behaviour the approved provider will write to the parent/guardian to advise them of this, and to explain that the child's attendance at

Education and Care Services National Law 2010- Section 3(2)(b); 3(3)(a)(b)(c)(d)(e)(f): 166

Education and Care services National Regulations: 84; 155-156, 168(j)

National Quality Standards for Early Childhood Education and Care: Standard 1.1; Element 2.3.1; Element 2.3.1; Element 2.3.4; Element 3.2.2; Standard 4.1: 4.1; Standard 4.2; Standard 5.1; Standard 5.2; Standard 6.2; Elements 6.3.1,6.3.2,6.3.3

the Centre(BRSCC) is suspended for the next two weeks in order to give the child time to modify his/her behaviour away from the Centre(BRSCC). After this time the child may return to the Centre(BRSCC) and will be given reasonable time to display a positive change in behaviour.

3. If the child does not demonstrate a positive change in behaviour on their return to the Centre(BRSCC), the approved provider will write to the parent/guardian to explain that the child's attendance at the Centre(BRSCC) will be suspended until such a time as the behaviour is corrected.
4. In the case of severe behaviour which threatens self-harm or bodily harm to educators/staff or other children, the parent/guardian will be informed that the child will be suspended or dismissed immediately.
